

HOW TO PACK THE ESSENTIAL SELF-CARE VESSEL

A PERFECTLY SELECTED DOPP KIT SHOULD MIRROR ANY GENTLEMAN'S SELF-CARE ROUTINE. PACKING THE RIGHT ESSENTIALS IS KEY TO A STRESS FREE MORNING ROUTINE WHILE TRAVELING.

WHY A DOPP KIT?

Originally invented by Charles Doppelt, he stitched the first 'Doppelt Kit' out of leather in 1926. The Dopp Kit was originally only sold locally until the US Military, during WWII, tasked the factory with equipping each active service personnel at the time. When the soldiers were done serving, they used them in civilian life and it soon became a household name. It is now an essential travel item for the DAPPER gentleman.

WHAT SIZE DOPP KIT DO I NEED?

Size does matter when it comes to picking out your Dopp kit. It should be about 1 liter so it is ideal to pack what you need as well as getting around the TSA liquids guidelines. We also recommend styles that are lightweight, have waterproof lining and not too stiff. Pack for speed, weight and space.

TRAVEL SIZED GOODS

Solid is the new liquid so think solid soaps, shave bars, moisturizers, etc. Look for travel sized, reusable and refillable bottles that eliminate waste while traveling. Screw caps are essential to never opening the bag to a wet mess!

ESSENTIALS TO PACK

Go through your daily routine and focus on packing only the essentials so you won't have to dig through clutter. Also, remind yourself of what the destination will already have to offer in-room.

- Body Wash
- Shampoo & Conditioner
- Comb
- Safety Razor
- Toothpaste & Toothbrush
- Deodorant
- Travel Sewing Kit
- Cologne
- Shave Oil
